Mar Cor Purification Announces Agreement with Lyons Filter for Beverage Projects

...Mar Cor will focus on Membrane Technologies & Service

Plymouth, MN, (December 2010) Mar Cor announced today that it has signed a beverage project development agreement with Lyons Filter (Frederick, CO) to jointly pursue projects in the beverage market. Mar Cor is a leading supplier of membrane based water treatment systems for the Life Science and High Purity market with sales and service offices in 22 cities in the US & Canada. Lyons Filter has a combined experience base exceeding 100 years in the supply and service of conventional water treatment systems to all North American beverage customers. The agreement will combine the strengths of both companies to supply custom turnkey water systems to beverage customers in North America for both Purified Water as well as Carbonated Soft Drink (CSD) production.

According to Ben Roczniak, VP Sales for Mar Cor Life Science, "this agreement is an ideal combination of experience and capabilities that will benefit the beverage industry with turnkey solutions. Thru our experience with purified bottled water installations, we have clearly seen that the beverage market place is moving toward membrane based technologies that are designed to produce consistent high quality water while minimizing the use of water. This is an area that we have excelled at for many years. "

D. John Baumhover, Executive Manager of Lyons Filter Co. Inc., stated "we're excited about this agreement with Mar Cor and the opportunity to jointly offer our clients the latest in water treatment technology. With our combined solutions and exemplary customer service we will be able to provide the beverage industry with the equipment and post-sales service needed to sustain efficiency and profitability."

About Mar Cor Purification

Mar Cor Purification, a wholly owned subsidiary of Cantel Medical Corp. (NYSE:CMN), has service offices in 22 cities in the US and Canada with seven ion exchange resin regeneration plants strategically located in Atlanta, Boston, Chicago, Philadelphia, San Antonio, Montreal and Toronto. The Mar Cor Life Science Group has been serving the water purification marketplace for over 35 years and has over 1000 installations in North America in demanding applications such as pharmaceutical, food & beverage and dialysis and has one of the largest water treatment related technical and field service networks to support our installed systems. We offer support with design engineering capabilities, 24/7 service coverage, field application sales, experienced service technicians, and a fleet of stocked service vehicles.

Mar Cor Purification is dedicated to providing innovative solutions through filtration, water, and disinfection technologies. Visit our website at <http://www.mcpur.com>.

About Cantel Medical

Cantel Medical Corp. is a leading provider of infection prevention and control products in the healthcare market. Our products include specialized medical device reprocessing systems for renal dialysis and endoscopy, dialysate concentrates and other dialysis supplies, disposable infection control products primarily for the dental industry, water purification equipment, sterilants, disinfectants and cleaners, hollow fiber membrane filtration and separation products for medical and non-medical applications, and specialty packaging for infectious and biological specimens. We also provide technical maintenance for our products and offer compliance training services for the transport of infectious and biological specimens. For further information, visit the Cantel website at <http://www.cantelmedical.com>.

About Lyons Filter Co.

Established in 1998, Lyons Filter Company, Inc. was formed to support an industry demand for experienced technical support in beverage water treatment, storage, and distribution systems. Formed initially through the partnership of two individuals with experience exceeding fifty years, Lyons Filter Company has the expertise to provide the products and service in demand for industrial water treatment systems.

In addition to capital projects, today's bottler requires a business partner who can provide an affordable solution for maintaining and enhancing their current water treatment systems effectively and efficiently. Lyons Filter Company, Inc. provides services from new design installations to refurbishment and enhancements to existing systems. Our clientele list exceeds 1500 and extends world wide. For further information, visit the Lyons Filter website at <http://www.lyonsfilter.com>
